

DEPARTMENT OF ORAL AND MAXILLOFACIAL SURGERY

DISSERTATIONS

SN	TITLE	AUTHOR	YEAR
1.	" Haloperidol plus ondansetron versus ondansetron alone for prophylaxis of postoperative nausea and vomiting"	Dr. Gyanander Singh A.	2008-11
2.	"Functional and aesthetic results of various lip splitting incisions: a clinical analysis of 30 cases"	Dr.Fatima.H.S.	2008-11
3.	"Comparison of 2.0mm titanium locking plate with 2.0mm titanium mini plate in treatment of mandibular fractures"	Dr. Mukesh Kumar	2008-11
4.	"A double blind comparison of bupivacaine against lignocaine for lower third molar surgery'	Dr. Shanender Singh Sambyal	2008-11
5.	"Effect of orthognathic surgery on the posterior airway space(pas)and arterial oxygen saturation"	Dr. Anuroop Singhai	2008-11
6.	"Evaluation of clinical effectiveness of composite form of bioactive glass and synthetic hydrxyaptite(grabio glascera) as graft material mixed with autologous blood after removal of bilateral impacted mandibular third molar"	Dr. Rajeev Kumar	2008-11
7.	Evaluation of extended nasolabial flaps in the management of oral submucous fibrosis	Dr.Udaya	2009-12
8.	Efficacy of post-operative antibiotics in the management of facial fractures: single day against five day regimen.	Dr. Chinmay Dilip Vakade	2009-12
9.	Diagnostic reliability of fine needle aspiration biopsy in oral and maxillofacial lesions	Dr. Ajit S Gudigenavar	2009-12
10.	A comparative study of three techniques for the reduction of the depressed zygomatic complex fractures - upper buccal sulcuss technique, gillies temporal approach, lateral eyebrow incision technique.	Dr. Aditi Uday Rao	2009-12
11.	Comparison of skin staples and standard sutures for closing incisions after head and neck cancer surgery - a prospective study	Dr. Jitender Batra	2009-12
12.	Comparison and clinical assessment of three different techniques of mandibular nerve block	Deepa B. V.	2009-12
13.	Comparison of extractions of partially impacted mandibular third molars with or without a buccal flap	Dr. Bhanushali Devang	2010-13
14.	Comparison of nasolabial flap versus buccal pad of fat with collagen membrane graft in oral submucous fibrosis	Dr. Agarwal Swapnil	2010-13
15.	Comparison of efficacy of articaine versus lignocaine in ianb during surgical extraction of impacted lower third molar: a randomized single blind prospective study	Dr.Vinayak G.Naik	2010-13
16.	Comparison of ondansetron versus granisetron for antiemetic prophylaxis in maxillofacial surgery patients under general anesthesia	Dr.Sawant Kiran	2010-13

17.	Comparison of submucosal infiltration of dexamethasone versus methyl prednisolone for reducing post-operative inflammatory sequelae following third molar surgery	Dr.Karande Amol	2010-13
18.	To compare the analgesic efficacy of aceclofenac versus ibuprofen in impacted lower third molar surgery: a randomized, double- blind, placebo-controlled study	Dr. Vikas Berwal	2010-13
19.	Assessment of two radiographic projections in the evaluation of zygomatic complex fractures.	Dr. Shreenath. H. Wajantri.	2011-14
20.	Ultrasound and computed tomography evaluation of cervical lymphnode metastasis from oral cancer	Dr. Deepthi B	2011-14
21.	Comparison of 3-dimensional and standard miniplate fixation in the management of mandibular angle fractures	Dr.Hunny Jain	2011-14
22.	Effectiveness of manual dermabrasion on appearance of Surgical scars in oral maxillofacial surgery –a prospective randomized observer - blinded study	Dr. Bhandari Ankush Kishor	2011-14
23.	A placebo controlled, randomized, double blinded, prospective, clinical study evaluating the efficacy of serratiopeptidase on postoperative sequelae of surgical removal of impacted mandibular third molar	Dr. Makhdum Hasan Kazi	2011-14
24.	Transoral treatment of mandibular symphysis and parasymphysis fractures using a single miniplate with or without intermaxillary fixation:a prospective, comparative, clinical based study	Dr.Rakshit Vijay Sinai Khandeparker	2011-14
25.	Evaluation of perioperative neurosensory changes associated with treatment of mandibular fractures	Dr. Shrinivas	2012-15
26.	Comparison of oral versus sublingual routes of piroxicam in the postoperative management of impacted lower third molar surgery	Dr. Riya Mariam Raju	2012-15
27.	Evaluation of restricted mouth opening (trismus) in patients following primary surgery for oral cancer	Dr. Padmanidhi Agarwal	2012-15
28.	Comparison of mini plate versus lag screw osteosynthesis for the fractures of mandibular angle	Dr. Gaurav Malik	2012-15
29.	Comparison of tru-cut biopsy and incisional biopsy in achieving prompt diagnosis of maxillofacial pathology	Dr. Kansagara Parimal Ranchhodbhai	2012-15
30.	A study to assess the significance of pre- operative and post- operative pulmonary function tests in maxillofacial procedures	Dr. Sushmita Punit	2012-15
31.	Evaluation of role of autologous platelet rich fibrin in healing and bone regeneration in mandibular third molar extraction sockets : a prospective study	Dr. Priya Pandey	2013-16
32.	Assessment of perioperative nutritional status of patients with oral and maxillofacial malignancies	Dr. Sneha Patankar	2013-16
33.	Management of mandibular inter-foraminal fracture using three dimensional locking plate and stainless steel miniplate: a comparative study	Dr. Sumit Shamvani	2013-16
34.	Serratiopeptidase, diclofenac and paracetamol versus diclofenac and paracetamol in control of swelling, pain and trismus after impacted	Dr. Tarun Mahajan	2013-16

	mandibular third molar surgery		
35.	Evaluation of serum levels of insulin like growth factor-1(igf-1) and insulin like growth factor binding protein-3(igfbp-3) in oral cancer patients	Dr. Kavita Devi M.	2013-16
36.	Analysis of lipid profile alteration in serum plasma of patients with oral sub mucous fibrosis	Dr. Abhishek Agarwal	2013-16
37.	“ A comparison between tumour volume and lymphatic metastasis using magnetic resonance imaging in oral tongue carcinoma ”	Dr. Shazia Sayeed	2014-17
38.	“ Healing outcomes following use of isoamyl – 2 cyanoacrylate and silk sutures in alveoloplasty : a clinical and histological comparison	Dr. Shivani Kumari	2014-17
39.	“ The efficacy of single miniplate fixation of mandibular angle fractures without and with 2 weeks of maxillomandibular fixation : a comparative study ”	Dr. Sushma K.	2014-17
40.	A study for the need of adjunctive treatment procedures in oral submucous fibrosis by evaluating the involvement of masseter and temporalis muscles using ultrasonography	Dr. G Jeevan Kumar	2015-18
41.	A comparative study to evaluate infection rate in simple mandibular fracture treated with and without prf	Dr. Shree Priya Miskin	2015-18
42.	A comparitive study between cervicemastoid and retromandibular extension of preauricular incision in transmassetric anteroparotid approach for condylar fracture management	Dr. Nitesh Chikara	2015-18
43.	Evaluation of the mandibular anatomy and its effect on the split pattern after the sagittal split ramus osteotomy using cone beam computed tomography	Dr. Vinitha Annavarjula	2015-18
44.	A comparative study to evaluate the efficacy of antibiotics with placentrex versus antibiotics with dexamethasone following mandibular third molar surgery	Dr. Varun Kocher	2015-18
45.	A study to estimate the serum albumin and c-reactive protein levels as the factors that influences the surgical site infection following oral cancer surgery	Dr. Vibha Wodeyar	2015-18
46.	A retrospective study to determine changes of hyoid bone position and pharyngeal airway space in bilateral sagittal split osteotomy and its effect on skeletal stability	Dr. Samyak Vakil	2016-19
47.	Comparative study to assess the viability of non vascular iliac and fibular grafts in maxillomandibular reconstruction	Dr. Nirdhum Shikha	2016-19
48.	Comparative evaluation of delta plate and two 4 hole miniplate osteosynthesis in the management of condylar fractures	Dr. Anurag Basak	2016-19
49.	Temporomandibular joint articular disc position after open and closed treatment of mandibular condylar fracture: a comparative study	Dr. Subhabrata Ghosh	2016-19
50.	Auditory canal injury following temporomandibular joint trauma – a clinical and ct scan corroborative study.	Dr. Parvathy Reghunadhan	2017-20
51.	Comparative evaluation of the bone supported archbar and tooth supported arch bar for maxillomandibular fixation- a clinical study	Dr. Vani N.R	2017-20
52.	A comparative randomised study to assess the efficacy of steel scalpel versus colorado microdissection needle in head and neck incisions	Dr. Sulagna Pal	2017-20

53.	A study on the use of collagen silicon bilayer membrane as mucosal substitute in oral submucous fibrosis	Dr. Avijit Bharat	2017-20
54.	A preliminary prospective study on intra articular injections of platelet rich plasma in treatment of tmj disorders	Dr. Sampada Prasad	2017-20
55.	Evaluation of outcome of the use of bioresorbable subcuticular dermal staples for closure of head and neck skin incisions	Dr. Krishna Madhuri	2017-20
56.	Assessment and Comparison of topical self-drying silicone gel versus base cream on post-operative facial scars-A randomized prospective study.	Dr. Rachana Ravishankar	2018-21
57.	A comparative study of clinical outcome with the use of titanium double Y-shaped and conventional two miniplates in anterior mandibular fractures.	Dr. Gouthami G	2018-21
58.	Evaluation of Orbital volume changes in zygomaticomaxillary fracture patients using multidimensional CT scan: A prospective study.	Dr. Debasmita Sarkar	2018-21
59.	Evaluation of Temporomandibular joint changes seen in pre-operative and post-operative patients of Oral Submucous Fibrosis using MRI: A prospective study.	Dr. Dimple Sethia	2018-21
60.	A study to assess clinical aggressiveness and long-term prognosis of Oral Squamous Cell Carcinoma by the use of colour Doppler Ultrasonography.	Dr. Dr. Arpita Khare	2018-21
61.	A study to evaluate serum and salivatory lactate dehydrogenase enzyme among Oral Submucous Fibrosis patients.	Dr. Sayanti Hazra	2018-21
62.	An anatomical study of Radial Artery perforators using Colour Duplex Ultrasonography: An observational study	Dr. S. S. Shreyas	2019-22
63.	Comparative evaluation of Erich arch bar versus dental occlusion ties: Wirefree technique for maxillo-mandibular fixation in mandibular fractures	Dr. Olivia Dias	2019-22
64.	A study to find the adequacy of surgical margin marking intraoperatively by Lugol's Iodine solution considering Frozen section method for Oral Squamous Cell Carcinoma	Dr. Prajwal. K	2019-22
65.	Efficacy of therapeutic low intensity pulsed ultrasound on mandibular fracture healing: A prospective study	Dr. Shiepra	2019-22
66.	Headless compression screws in treatment of Intracapsular condylar fractures: A prospective study	Dr. Anvika Ashok	2019-22
67.	Use of autologous free abdominal dermal fat graft for repair of midface contour defect in Oral Submucous Fibrosis using face lift incision- A qualitative study	Dr. Lakshay Gupta	2019-22
68.	Evaluation of clinical outcome of maxillary sinus following posttraumatic management of mid facial fractures - a prospective study	Dr. Sirisha S. P.	2020-23
69.	Geriatric nutritional risk index (GNRI) as a clinical prognosis in head and neck cancer patients- a prospective observational study	Dr. Devarakonda Chandana Sri Sravya	2020-23
70.	Evaluation of efficacy of intraoral mucoadhesive dressing material in patients undergoing maxillofacial trauma surgery-a split mouth study	Dr. Sandeep. B. S	2020-23
71.	Comparative study on postoperative morbidity between Kinesiotaping and surgical drains after third molar surgery	Dr. K. R. G. Aravind Kumar	2020-23

72.	3-dimensional finite element analysis between a novel 'A'-shaped plate and two four-hole miniplates for fixation of condylar fractures of mandible-an in vitro study	Dr. Bitra Deepti	2020-23
73.	Evaluation of various radiomorphometric values of mandible and its relation on to mandibular angle and condylar fractures	Dr. R. Humsini	2020-23
74.	Comparison of efficacy of polydioxanone threads and botulinum toxin type a injections in facial rejuvenation surgery- a randomized control trial	Dr. Farheen F. Shaikh	2022-25
75.	Evaluation of primary wound healing in mandibular third molar incisions(Terence ward's incision and koener's incision) using knotless barbed sutures- A randomised control trial	Dr. Disha Dip	2022-25
76.	Determining clinical outcome of physiotherapy with and without ultrasound as a potential therapeutic adjunct to surgery in oral submucous fibrosis -an experimental study	Dr. Piyush Dalmia	2022-25
77.	Assessment of masticatory efficiency by measurement of Bite Force, Electromyography and Mandibular mobility in patients treated for Mandibular angle and zygomaticomaxillary complex fractures	Dr. Triveni S.P.	2022-25
78.	Comparison of envelope flap and Pedicle flap designs for surgical removal of mandibular 3rd molar: A randomised control trial	Dr. Kajjal Megh	2022-25
